Feel me near 31
Come back 32
Remember you 33
Golden cage 34
Let us love 35
My goal 36
Let us pray 37
Let us smile 38
There are lots of stories 39
The evening stars 40
One world, one mother 41
If you love me 42
I want you to stay 43
Who's there 44
I'm trying hard 45
Let us go to watch a movie 46
Your heart is harder 47
Let me know if you love 48
When I feel about you 49
I have realized that 50
When you show your true colours 51
Without you I can't feel 52
What can I do 53
When the world will change 54
With you in the blue sky 55
I hope you realize 56
He was a great man 57
I want to tell you 58
When I see you 59
I am now committing 60

Once we were both young 61
Leave the old world 62
You burn me 63
Thousands of letters 64
I shut my mouth 65
Don't say goodbye 66
Every night I wait 67
What you do 68
We have been waiting 69
Let us make a plan 70
Don't shake hand 71
I will win you one day 72
I am waiting for you 73
If you come in my life 74
When will I get you forever 75
I still don't know 76
In my every breath 77
I open my eyes 78
My love will be endless 79
Life is like a river 80
If you leave me 81
How long will you hurt 82
I try to be open to you 83
Our hope is climbing 84
You promised me 85
Close together 86
Old stories 87
.My heart beats for you 88

## For the price

We will live in this world
Let us make it nice
We will not work in vain,
we will run for the price.
We will relax, we will drink,
We will not roar at all,
We will make people happy
At night asleep we will fall.
There will be gaps in family
Many gaps here and there,
To fill the gap between
We should care and share.
We'll make our house nice
We will play, we will eat,
We will open our heart
We will let others sit.
Our house beyond the yard
Good will be neighborhood,
People surrounding us
Our relation will be good.

## River of life

Sweet dreams tied to you
Happiness went into exile,
My life after separation
It becomes very fragile.
Seeing someone's face
We could know nothing,
In love nothing is equal
But there is something.
Moonlight and love from me
Gone away from my heart,
The heart lamp extinguished
Day by day getting dark part.
When you left, made a gap
Storm destroyed the life
All petals have fallen off
I couldn't be a good wife.
The thirsty soul dies crying
In a secluded silent place,
I know I won't find you
Though pray for your bless.

## You are unique mom

Mom, for your sacrifice
My life is joyful and blessed,
I'll take care of you
You will not be stressed.
You are so unique my mom
I realize more day by day,
I know my debt is so big
I will not be able to pay.
Your blessings rid my misery,
You've taken well care of me,
You have built my whole life
Give me a chance, you'll see.
Immersed, mom to see you are
In the affection of mine,
Hide your pain in body and mind
You try so I can shine.
Please pray so I can be kind
And find happiness in life,
I will be helpful to the needy
You are best mom and wife.

## Twit

How can I live without you
Whom can I talk sweet,
Who will make my house nice
Around me who will twit.
Don't leave my, heart is breaking
It'll bleed if you're not with me,
Without your smile I am sad
Around me you I want to see.
There's a lot buzz around me
No one can touch my heart,
I like your accompany much
Please don't go leave me apart.
When you are with me
I feel like fireworks twinkling,
And exploding in the sky
Joyful time with you I'm feeling.
Closing my eyes deep breaths
I have shower with moonlight,
Without you, I'm so sad
I am drowning in dark night.

# I will be yours

Even if you forget me
I will remember you,
Even if you leave me
I will love you, will do.
I will live with the dream
Dream will be in my chest,
I will light lamps in your name
In my life you are the best.
I am on a full moon night
The night will be only our,
We will decorate a house of love
Inside the chest light and power.
You are my only heaven
Though there is lot gaps,
I am with burning love
I will draw life maps.
When I think of you then
I feel you are alluring,
There are lots sweet memories
Life will never be boring.
My garden is full of flowers
I'll put the garland on,
I will love you life long
Even when you are gone.

# Embrace

You said you'll make me Happy
in your tight embrace,
I was waiting for that moment
Too bad, lost your address.
You said you'll build a house
of sweet dream and happiness,
Now you have gone away
My life now full of sadness.
You have broken my heart
Failed in your commitment,
There will be no reunion
you killed a dream of Innocent.
You said we will walk together
We will live together in our life,
Will share and care each other
You have killed with sharp knife.
The burning love extinguished
There are rain of sorrow,
My heart is open for you
But your heart is very narrow.
I have trusted you as truthful
But that was the wrong of me,
Everything that I have lost
Only you that I can't see.
Still, I love you very much
That is my only secret,
Still I remember the day
Remember the moment we met.

## Wake up

Wake up those who are asleep
Let us work for peace,
We will enlighten the world
Let us join in these.
Wake up now it is morning
Call for work together,
In building our country
And a clean weather.
Let us make sweet dream
In everyone's mind,
Create a positive environment
To the children, be kind.
For reducing the poverty
We will share and care,
We will help the needy
We will support there.
Don't throw anyone away
Wipe people's tear,
Make them strong who weak
Come to the poor's near.

## Look for peace

Forget all the differences
Peace be upon you,
Love, affection, respect
Everyone, we should do.
Tolerance will bring peace
To our home and society,
Get rid of hatred from the mind
It will bring our prosperity.
Get rid of misconceptions.
Come speak with respect
Let us all be flexible,
And make the world perfect.
Morality is not hurting anyone
Forgiveness is the religion,
Let us enjoy live together
And accept different opinion.
Good luck for all we work.
We want to live with dignity
People's life should get better
God made everyone pretty.
Regardless of race or religion
Come on, we are brothers,
Everyone, forget inequality
Let's believe we're all lovers.
Let's make our minds big
for everyone in the world,
Bring generosity in our hearts
For rights we should be bold.

## My lyrics

All of my love I left
in my songs I write in life,
You just have to be nice
Keep them in memory alive.
You bury me in your mind
I will not feel sorry,
My lyrics my poetries
Please keep in memory.
The melody of my songs
Let be middle of your chest,
In various ways I want to
Reach you, you're the best.
I know in my grave
No one will give flower,
Just remember my songs
Waves of sweet power.
I want to float away
All my love from heart,
I will give my love to
Conquer the world's part.
It's good to wake everyone up
With their own identity,
Let's all float away
In the storm of love, dignity.

## Love story

Sweet memories of my friend
I remember now and then,
He lives abroad long days
I write him with blue pen.
Love blooms like a flower
The stars twinkle in the sky,
I am alone in the house
I wish to him I will fly.
I keep the lamp of love
burning for his arrival,
The ark of the mind is open
For him I am available.
My soul is thirsty for him
I need my friend near,
I like him like way too much
Like the scent of his hair.
I am in love with him
He is my glory,
Who will tell my friend
My secret love story.
Inside his heart
Just I want to be,
Rose of love inside
Layer by layer in me.

## When we met

When we met at first
That memory is so sweet,
That's why I'm with you
I love you and I will do it.
Writing for you love poems.
You are touching my heart,
You are my best friend only
Please don't go apart.
You are my life's destiny
I like you really very much,
This is our heavenly love
I enjoy your talk and touch.
Longing for your affection
I am happy you are mine,
Our happiness is infinite
Together life we'll be fine.
With colorful memories
My mind's book is full,
We are now in real love
Our learning is very cool.

## You are mine

One day with you in my life
Maybe there will be reunion,
My friend in that hope
I keep with you relation.
Find happiness in you
In my dream you are there,
My heart is open for you
Our relation is closed and fair.
Your memory in my chest
They are just lots of stories,
Thousands of poems I write
They are all memories.
I wish you my dear friend
Let's take a closer look,
Without you my life is empty
That's what I wrote in book.
Without you life is nothing
Everything is useless here,
You are staying far from me
Wish I should be near.
Nothing I ask from you
You're just what I need,
You will be absolutely mine
That is my only greed.

# Facebook

I see your face on Facebook
I like it very much,
Wish to be friends with you
I hope you feel as such.
I send a friend request
You have made me friend,
Messenger is communication
Every day text we send.
After getting you as mine
I felt I touched the sky,
This burning love with you
We come closer and fly.
That's how I became yours
All my depression went away,
It feels good when you're near
Lots of love talks we say.
Seeing your picture I fall in love
I feel pursuit of happiness,
I feel like I got heaven
Now I am free from sadness.

# Sweet love

I won by getting you
It's like heaven's victory,
My love for you is like faith
In heart, we'll make history.
Your heart I have got
It's a great achievement,
I have fallen in love of you
It is my true statement.
You are the greatest reward
of happiness in this world,
I have got you and I'm proud
I can say to all with bold.
My heart is exchanged
with you forever I can say,
You came in my life like shadow
of peace that made it's way.
Your humbleness and love
I will enjoy them forever,
The memories are so sweet
Life long both will do favour.
This feeling was never there
In me before I met you,
Such sweet love that lasts
a lifetime and we will do.

## Hold your hand

Sometimes I wish
To talk to you openly,
I wish to sit next to you
When I feel really lonely.
Wish to hold your hand,
Look at your bright eye,
I will see you for long
I will feel like we fly.
I want those eyes
As they are only mine,
I feel you in my heart
When you're near, feel fine.
A glimpse of your smile
Drives me crazy a lot,
Like a brazen mind
It feels really hot.
Those sweet words of you
Oh dear I die for it,
As soon as I touch you
Or beside you I sit.

## Happy birthday

Let us celebrate the day
Lots of love I convey
I want to open my heart
Wishing you happy birthday
May your wish be fulfilled
by Almighty Allah so kind,
Peace in your soul with light
Keep happiness in mind.
My good wishes for you,
Of course for you I pray,
I want to open my heart
Wishing you happy birthday.
I owe you for your smile,
I am really fascinated
May Allah keep you healthy
Be well all related.
Be good to everyone
Without arrogance everyday
I want to open my heart
Wishing you happy birthday.

## Please stay

Like the sky with cloud
In the middle of my mind
My heart is sad
The peace I try to find.
Like in a cage of bird
I am in, want to fly,
Captive life in the hermitage
Nothing to do, just cry.
You came in my life
Tell that you love me,
In the folds in my heart
You are there and will be.
In the forest of my mind
Lots of roses are there
I feel about your love
My feelings I can share.
When you come to me
I feel free and joy
My sadness go away
Your accompany I enjoy
When you buzz around me
I feel happy and shy
I open my mind,
My heart wish to fly.
When you talk with me
Like the tune of a flute
Those are wonderful moments
In my life you suite.
In the midst of nature
Nice couple we are
We can stay together
Please don't go far.

## I want him

I am in love with him
Could not say till today,
I cannot stay away from him
I wait, soon I will say.
I try to stay very close
I keep eyes on his eyes,
Lots of things to say
To me he's so nice.
Many days have passed
Many nights are over,
I wait and wait for him
He's really very sober.
I have given him my heart
Mad for him, I can say,
His memories are so sweet
Never want to be away.
I want his time with me
About him I dream stories,
I meet him occasionally
I keep him in memories.
I want him for ever
I like his smiling face,
He removes all my sorrow
I want his happiness.

## Come along

I have feelings for you
Wherever you are, always,
I feel empty in my heart
All the nights and days.
You have migrated abroad
Said you'll be back soon,
It has been long years
Alone I talk with the moon.
I miss you so much
Feel we are not so far,
Wish you were with me
That we were together.
Remembering your words
For you, often I cry,
Don't stay away from me
Come back fast, please try.
You are the love of mine
I always like your tone,
If you think about me
Call on the telephone.
It's hard to stay far
As life goes on sad,
Not without you anymore
You're far, I feel bad.

## Wake up, soul

In tune with your tune
Life long I will sing song,
Come along with me
My soul didn't do wrong.
Wish that all my life
I will be by your side,
I love you so much
You are my pride.
Inside my heart
I kept you secret,
You are my life
You are really great.
I just wanted you
I don't want money,
Keep me in your memory
Life is not funny.
In the middle of my chest
There is only you
After I have met you
I feel you and will do.
Constantly on you
I'm relying, please address,
Don't know what will happen
Need a house of happiness.

## Women

A woman's life is like
Closed reservoirs,
In the absence of freedom
People victimize us.
Stone pressed to her chest
Their wishes are worthless,
Domination in every step
Mostly feel helpless.
Husband's house after marriage
As drowning in the deep sea,
Women don't have own house
They have to be down on knee.
The relatives are very sad
When a daughter is born,
As the girl children
They are family's thorn.
There are countless
responsibilities on them,
From dawn to midnight
They work, people blame.
If women make mistake
At any of their work,
Male yell at them
It's as if they bark.
Holding the throat shut
If women protest,
Alas, women never get
Any freedom's test.
Women are used like products
Of consumption in mall,
Men feel they are big
And women, so small.

## Tolerance

Patience and endurance
Is the big education,
If there is morality
Peaceful will in nation.
Culture of own country
We should practice,
Violence is no more and
Let's talk about peace.
People of all religions
We will respect all,
Forget the differences
No domination to small.
We will not hurt anymore
Never people's mind,
No more hate, discrimination
Everyone will be kind.
Misleading information
No more publicity,
We will follow religion for peace
Everyone's heart is pretty.
For each other's happiness
Let's work together,
Work to reduce others' trouble
Make the world better.
Have an attitude of help
Cooperation to other,
Work for people of our country
That is our mother.

## Blue pain

With a wailing chest
Wake up all night
I'm in blue pain
For life I fight
I am a injured bird
The joy has gone,
My youth is frozen
For life I have done.
Today I have nothing
I have no good mind,
I'm in the tide of sorrow
Happiness can't find.
A whirlwind storm in the heart
I have Sang that game.
Bloody loveless I am
In heart only flame
At the confluence of the seas
Like the dawn dying,
I have not mistaken
Like I am flying
In the middle of the waves
I am facing trouble
Remembering you
As I love you dubble.

## Appeal to world leader

You do not love the people
Brutal you are, world leader,
You are just bombing and killing
Selling weapons which isn't better.
You are making the world
Like a desert very dry,
Destructing the nature
Where million people cry.
You are running war full swing
Giving the arms to the killers,
Day will come you will leave
World will be in the hands of healers.
It's time to stop war
Stop the game of killing,
They died because of you
Trillions of dollars you're billing.
No more destroying the world
No more object of hatred,
No more discrimination
No more people betrayed.
I beg you, stop fighting
For the welfare of mankind,
Take the path of survival
Please be good and kind.
Stop terrorism from now
Take away arms from the world,
Don't be a leader inhumane
Brutal you should be called.

## Colorful paradise

I feel you in my heart
Sweet fragrances are there,
As if colorful paradise
To you I am very near.
I am in love with you
My mind has melted today,
As if full of love in heart
It will be for you everyday.
My eyelids as they are
Thirsty birds are waiting,
When I meet you I am
nervous and I am sweating.
In the midst of a silent soul
You are only mine,
Flowers bloom in the courtyard,
They look really fine.
Your face is like silent moon
cross the window I see,
All in our happy life
There will be you and me.

## For peace

Come on, we work for peace
Forget the differences today,
Compassion with huminity
We'll build the world one day.
Be friendly with all
Let us establish humanity,
Let it be practiced by all
Flexible manners in society.
Let there be bond of brotherhood
We must wake up for peace,
Our goal is to be happy
All should follow ethics.
Violence is the step of war
We will break down that walls
Today we'll make commitment
True will be there, no false.
No more breaking the law and
No more exploitation,
No more human rights violation
No more oppression.
Peace should be in the world
Whatever the location,
Peace for every man and woman
Peace for good relation.
Loving people is a great job
Stop arbitrariness,
Work for peace in the world
Work for kindness.

## See you soon

How sweet is your voice
As the melody of a fountain,
It touches my heart
I am around the mountain.
That is what fascinates me
Your black bright eyes,
I looked and surprised
Your fingers are nice.
Moving in the dark
Your silky hair so long,
I recognize at a glance
I didn't do anything wrong.
You are in my midst
No matter how far away,
I wonder looking at you
You have made my day.
Your face is fair as light
As the full bright moon,
The mind is very fresh.
I want to see you soon.
Like the free dew of dawn
The smile on that face,
You drive me crazy
Thought life is a race.
Don't leave me ever
My dream will be shattered,
I love you so much
Your praise got me flattered.

## My heart is yours

In this world no one knows
Who I am looking for,
But you know everything
Because my heart is your.
As I think of you
My Heartbeats are high,
Like a charming mind
I wish to fly in the sky.
You touch my heart
You touch my mind,
In the deep of my chest
You really can find.
I think of your face
I think of your touch,
I always dream of you
I miss you so much.
Without your love
I can not live,
I wait for your touch
Day, night, and eve.

## Don't be cruel

Don't lock your mind
Don't be cruel to me,
Am drowning in destructive love
Hold my hand and see.
My mind is now dew wet
Still looking for you,
How can I live without you
Touch my hand and do.
In this life without fragrance
I just think of you,
My two eyes twitched
Look at me, please do.
You are the mirror of my mind
I'm burning without you,
You tell me how to live
Love me please you do.
Loneliness takes over
How will I endure separation,
How I will be closed
I don't have any preparation.
In the knife of emotion
You have killed my heart,
Still I want you to get you
Still waiting, don't go apart.

## Broken heart

You have broken my heart
You have broken my hope,
We have done, you have gone
There is no other scope.
My life is a desert now
No green, there is gray,
Enough you've done with me
Don't want to be your prey.
In my heart I feel pain,
Loving I have forgot
How will I live alone
Life becomes short.
No one is there to greet
I don't see anyone,
How do I live alone
In life there's no one.
All the petals have fallen,
fragrance gone away
Sadness surrounding me
Where will I find way?

## Feel me near

In my heart there are waves
Deepest love is there,
In my eyes see affection
Feel me, I am near.
In the windy weather
Cloudless blue sky,
I hold you in my arms.
You are very shy.
Feel storm in the heart,
No sleep in the eyes,
I see night dreams
Those are very nice.
See the garden by window
Romance in my mind
I write about your story
As you are very kind.
Aroma flowers in the grove,
I will make the earring
My chest is full of fragrance
Our friendship is for sharing.
Finding the memories back,
Slowly in my heart,
The compassionate mind
speaks
Please don't go apart.

## Come back

Without you in my eyes
Tears are flowing,
I don't like the moon, sun
Stars are glowing.
Without you in my life
All green gone,
Darkness has surrounded me
There is no sun.
Without you in my life
All the dreams are broken,
Remembering sweet memories
All the talks we've spoken.
You have stolen my love
You've stolen my heart,
I miss you day and night
But you are now apart.
How can I bring you back
How can you come,
How can we both be happy
Suggest me some.

## Remember you

Awakened inside the soul again
You are in my memory,
My heart woke up for you again
To you I am sorry.
I remembered you again
Hoped to get you closer,
As if rejuvenated again
Don't want to be a loser.
Dreaming to get you again
Let us leave together,
Roses of love blooms here
Nice like today's weather.
The unconscious heart has forgotten
The pain you've given me,
The cloudy sky is now clear
Now you can see.
Again in my mind you can
See the colours bright,
Victory will come to me
If you're with me this night.

## Golden cage

Life is like a golden cage
Prison is your heart,
In the middle of the chest
You locked me, that hurt.
I have forgotten the world
Prisoner in the house,
I'm just with you and you
As you are my spouse.
In brick-and-stone buildings
Life tied up by you,
Wish to fly in the sky
And the green too.
I am just a happy pigeon
Habitat in the prison,
Can't dream of the outer world
You stop me, that's reason.
I only look out the window
I can't see the moon
Dream to see the moon and
Hope I will see soon.
On the field of green grass
I just want to walk,
I'm just walking numb
Brick-stone that shock.
I will break the gold cage
I will break the lock,
It is time to take decision
On that let us talk.

## Let us love

Let us love
Love for the world,
Love is diamond

Love brings profit
Very versatile.

Love is freshening
Brings good mood.
Love makes generous
And cordial,
Love is romance
Love is real.

## My goal

When you are with me I feel
Heaven inside my soul,
The golden dreams will come true
Getting you is my goal.
You are the rhythm of my life
There are songs in my voice,
The fragrance falls on the buds
The soul is cool, no noise.
When you are near, I feel safe
When you're far feel tension,
Excitement awakens inside my chest
Always your name I mention.
I feel you every moment
Thoughts in this heart,
I really hope from me
You will never be apart.
You are my life partner
In the world of peace,
Thrilling feelings always
You make me feel these.
Obsessed with you and
Mad for you every day,
If I find you, huge victory
You are mine I can say.

# Let us pray

Let us pray
Pray for peace,
Without peace
The world we will miss.
Pray for valentine
In our mind,
Then happiness
We will find.
Let us give
True love to all,
It is necessary for
Sadness to fall.
Let us make
A journey towards peace,
Without peace
The world we will miss.
We need to practice
Kindness and love,
Then we will see
The peace dove.
Share and care
Will make world fine,
We should not think
Always for mine.
Share and care
Will bring us peace,
Without peace
The world will miss.

# Let us smile

Let us smile
Smile for you,
Smile for peace
Smile you do.
Smile for good health
Smile for choice,
Smile for happiness
Laugh make noise.
Smile and be genuine
Do not be fake,
Joyful environment
We shall make.
Smile brings benefits
Wellbeing of us,
Smile is considerate
Attractive for mass.
Smile brings for us
Good feeling,
Smile makes body
And mind healing.
Smile helps evacuate
All of our sorrow,
Smile from heart,
Smile I borrow.
Let us smile
And be physically fit,
Smile can give away,
Sorrow a bit.

## There are lots of stories

There are lots of stories,
Love stories of me and you.
If you leave me now,
My life will be spoiled and blue.
Remember our golden memories,
Rhythm of wild love too.
Don't regret me please,
For I will miss you.
Let us hold our hands,
You should not run away.
If I make mistake,
I'm sorry I shall say.
Remember our love light,
There was no dark.
Life long we will be together,
Our life will be spark.

## The evening stars

The evening stars are
Whispering in my ear,
Telling me to spread love to
everybody, far and near.
Forget the fight and spread
Happiness throughout the world,
Why see the discrimination in
Inside the same blood.
Sacrifice is our religion
Let's run for sacrifice.
It will bring happiness,
Let's run for world peace.
We are travelers on the same path,
Guaranteed birth and death.
Momentary air in the middle of the chest
Why are we running for breath?

## One world, one mother

One world, one mother,
Let us take care of her together,
Let us take care of all the children,
One family we will be then.
We are all human, sister brother
One world, one mother.
Share resources, Share love,
Let them fly our peace dove,
Find the places people are dying,
Share your money, make them fine.
We own the same earth, not the other,
One world, one mother.
We are breathing in the same air,
We need to create more fresh air,
We need to go green here and there
We need to treat others' fair
To gift to our children a new world together,
One world, one mother.
Girls and boys are same, the human,
Whether a man or a woman,
All are the creatures of our God,
Who is the one created the world.
Its our choice to make the world better,
One world, one mother.

## If you love me

If you love me
I will never leave you.
If you trust me,
I will trust you too.
I'll never let you go far,
You will be only mine.
We will have same feelings,
Our life will be fine.
I need you cause I love you,
Without you I can't live.
Come to me, stay with me.
Happiness I will give.
Please never doubt me,
My heart is like a glass.
If we live together,
Life will be first class.

## I want you to stay

I want to stay with you dear
Don't leave me forever.
Let us live together for life time,
Please do me a favor.
I have given you all of me,
When I love you.
My heart is so empty now,
Nothing you can view.
Every moment I remember you,
In my dream you're there.
Don't be far away from me,
Please come near my dear.
I have done wrong to you,
I've gone against you.
I beg your pardon for my mistake,
Again I will never do.

## Who's there

Who's there who knocked my heart,
Who's there calling me?
Who is there offering love?
Now I want to see.
I can't figure out the person,
Please come in front of my eyes.
Why aren't you coming leaving behind,
You must be looking nice.
You are following me, sending me letters.
I don't know, who are you?
It may happen, I can fall in love,
I may love you too.
Nothing is going to happen,
If you just hide you,
We maybe be losing precious time,
Let us please meet too.

## I'm trying hard

I'm trying hard to get your heart,
To get your love pure.
I have given you real love,
Trust me, I assure.
Though you're far from my life,
But I need you near.
I really like your lovely face,
I know your heart is fair.
I believe you are a good person,
I hope you have transparent heart.
My mind is always open for you,
Please be my life part.
I can't count days and days,
Can't wait for so long.
I'll try to be always right,
And avoid being wrong.

## Let us go to watch a movie

Let us go to watch a movie
Let us sit near,
Let's talk about our inner feelings,
Lots of things we share.
I always felt that you are mine,
And that we'll live together.
We will play badminton,
With racket and feather.
You and I will make a home,
Lots of love will be there.
We will know each other better,
And we will stay near.
My dream is to make you happy,
Myself will be happy too.
I have given my tender heart,
Gave my pure love to you.

## Your heart is harder

Your heart is harder than a shell,
I want to melt that to tender.
If my love is truly strong,
It will work like a blender.
You tried to stay far away,
That attitude really hurt.
I want to make you romantic,
And you be my life part.
I have kept you deep in my heart,
In my mind you are there.
Let us talk and smile together,
Let us love, we can share.
You can see truth in my eyes,
You can believe me.
How can I prove my love,
No distance can there be.

## Let me know if you love

Let me know if you love me or not,
Don't shut your mouth.
For so long I'm following you,
East west north and south.
Every moment I am thinking of you,
I want you to be mine.
Please don't stand so far away,
Come closer, it'll be fine.
Without your love and touch,
My life will be dark.
Let us share our views,
Let us sit in the park.
Only for you my heart is wild,
Only for you I wait.
Only for you I walk on the street,
Under the sun I sweat.

## When I feel about you

When I feel about you,
I didn't see you for so long.
You've been on the right track.
I have been really wrong.
It was my mistake,
I have broken your heart.
I should not yell at you,
Now we fell apart.
Now I feel remorse,
I'll be happy if you forgive me.
Please come closer to me,
I'll make you happy, just see.
Now I miss you so much,
We can stay in one home.
As you're in my heart,
We'll be in one room.

## I have realized that

I have realized that I'm in love,
I have opened my heart for you.
I cannot live without you,
I love you and I will do.
I want to convince you,
The way you talk is fine.
I remember your talk when free,
And feel that you are mine.
How can I say I want to touch you,
Kiss you on your forehead.
First time I want to touch someone,
Without you life will be fade.
I am hesitating to tell you directly,
I think you understand me,
Please look at my eyes cause,
Cannot buzz like bee.

## When you show your true colours

When you show your true colours
You set fire in my heart.
I felt I was safe in your heart,
But now I feel apart.
There is no light in my life,
Now is only dark.
My life is spoiled and lost happiness,
Nowadays you only bark.
I felt that you're my world,
My only love, you are mine.
World is taking a bitter turn,
It will never be fine.
All my life I run after you,
To get my love true.
But you chose to break my heart,
It's done, what can I do?

## Without you I can't feel

Without you I can't feel anything,
There is no value of this world.
Whether sky, ocean, forests are there,
I am sad we have quarreled.
I want to forget all of this sadness,
We have to change us.
I don't want to end this relation,
We have good time pass.
We have promised each other,
Life long we'll be together.
We should both take care,
We'll make happy one another.
I believe you are mine,
As you are a nice person.
I will never leave you in life,
I love you, that's the reason.

## What can I do

What can I do to make you happy,
What can I do for your love?
I always think of making you mine,
Like a peace dove.
What can I say to make you laugh,
What will be the sweet words?
How do I make your life joyful
Just like flying birds.
I don't know what is right for you
And what is wrong really.
I want to spend all of my life,
With you and you only.
I don't know when I fell in love with you,
I feel all the time for you,
I don't know if you've fallen in love,
But I hope you did too.

## When the world will change

When the world will change,
Will change me and you.
We never know what is going to happen,
Use of arms may increase too.
We can work to change the world,
Work for making peace,
The restless world should be calm and quite
And happy world should be this.
Selfishness should be reduced,
Tenderness should be increased.
If we try to make people happy,
Killing and suicide will be decreased.
We need to love each other,
And also respect others.
We need to care for each other,
Just like we do with brothers.

## With you in the blue sky

With you in the blue sky
I wish to fly.
Thousands of stars and
Moon in the sky.
Dream to live together,
See eye to eye.
I kept you in me,
Please don't be shy.
I'm not a stranger,
I wanna belong to you,
I lay my life forever,
I love you, will do.
If you trust me,
you will be fine,
One day I believe,
You will be mine.

## I hope you realize

I hope you realize my mind,
Realize my tender heart.
There should be no distance,
You should be my life part.
But so little you know about me,
We need more to share.
Time is running out so you see,
Beside me when you'll be here.
We will make a good love story,
We will make colorful garden.
We'll be there to help each other,
They're will be no burden.
I will not hurt you for sure,
I won't make you cry.
To make you the happiest,
For sure I will try.

## He was a great man

He was a great man,
He has given me his heart,
He dreams we will be together,
He stands by as my part.
I could not understand him,
Couldn't feel his love.
I ran away from him,
Like a flying dove.
There was no darkness in him,
His heart was enlightened.
I couldn't realize his love,
His mind was really brighten.
I have lost a diamond,
I have made mistake.
I lost him for ignoring,
His heart I did break.

## I want to tell you

I want to tell you
how I feel now,
I love and respect you,
I want to bow.
You are so generous,
You are so kind,
You have a big heart,
And the freshest mind.

You don't lie,
You don't talk much
You're a little shy.
You are my type and

Life long continuously

When I see you, my heartbeat increases
In my heart flows a river.
After so long I saw you
Come closer do me favour.
In my heart, endless beats for you,
You please be mine.
I wanna get you in my life,
Time together will be fine.
I want to win you to keep in my heart,
Don't stand so far.
Let us replace our heart,
There should be no bar.
I will love the way you like,
I will talk so sweet.
If you really do love me,
Please, you must tweet.

## I am now committing

I am now committing with you,
I will do compromise,
Staying together for each other,
We need sacrifice.
You have made big vacuum,
In our sweet relation.
You promised you'd come closer,
Still big gap communication.
I am worried about you,
I miss you so much.
You were lost for long,
I look for you, search.
I cannot change my mind,
I will stand beside you.
Please listen to the rhythm of my heart,
You will love me too.

## Once we were both young

Once we were both young
We had been happy so much,
We had trusted each other,
We look for each other, search.
Spent all night talking and talking,
We adore each other,
Forgot to sleep for days and nights,
We gossip together.
One day we have lost our love,
Our trust has been broken,
It makes distance between us,
After that nobody spoken.
Rose thorns hurt, the petals fell off,
Both of our chests were paining.
Both our hearts were broken and
There was no gaining.

## Leave the old world

Leave the old world behind,
Welcome the generation new,
Life is harder than a bullet,
But we should have a tender view.
We have to match the rhythm of world,
With the rhythm of sky.
We have to hope for happy world.
Dream for peace dove fly.
Light will follow us killing the darkness,
People will love each other.
Driving away sins and crimes,
We will be each other's brother.
We should not let people down,
We should pull them up.
We have a long way to go,
We have to be sharp.

## You burn me

You burn me day by day,
I'm gonna be mad,
If you leave me like now,
Forever will be sad.
Your love is like a steel knife
Killed my tender heart.
Now you have to be mine
As my life part.
My half you stay far,
Please come closer to me.
I have given you my full heart,
You can check and see.
I never lied to you,
My love is pure.
Don't escape leaving behind
I deeply need you sure.

## Thousands of letters

Thousands of letters I have sent you,
You only replied little,
Why do you stay so far,
My heart feels so brittle.
What about your commitment,
Will you stay near?
You made me delighted,
Now you live far there.
You are not hurting me,
But I really miss you.
I will be completely happy,
When you'll be near too.
I feel proud of you,
You are a good man.
We will live together,
Let us make a plan.

## I shut my mouth

I shut my mouth cause you're annoyed,
Now I will not say anything.

Don't regret I am sad too,
What can we do let's see.
My heart is now a beating drum,
Do not know what to do.
I request don't be sad,
I beg pardon to you.
Let us erase all darkness,
Our life let us enlight,
I will try to make me calm,
I'll try not to fight.

## Don't say goodbye

Please don't say goodbye now,
Stay with me this night.
We can spend good time together,
You may go in the daylight.
I hope we will be happy
If we are closer,
Days are going we're not meeting
We are being loser.
In the weekend in our day off
We can go places to visit,
Both of us will sacrifice,
We have to maintain limit.
When you and I are together,
I feel it's a heaven.
You feel my tender heart,
You can check it even.

## Every night I wait

Every night I wait for you
Wait to see your face.
We will come closer
There will be no space.
Wherever you are at work or home,
In my eyes you are.
I listen to your heartbeats,
Whether you're near or far.
I will wait to be holding you,
I'll wait to be to hugging you,
Wait for you to sleep on the bed,
Under the blanket too.

In my life time too.
You are the one I need you most,
Very much I love you.

## What you do

What you do, everything I like,
Those are very beautiful.
How you talk, how you smile,
I find them wonderful.
The world may go against us,
Nobody can stop our love.
Thorn of roses can hurt us.
But there will be peace dove.
Sadness come for little time,
It all goes over.
All our life we'll be together,
Together forever.
If crisis come to our life,
We will face together.
In between us no distance,
It will be good weather

## We have been waiting

We have been waiting for long,
We lost so much time.
I assure you I'm a good person,
Never did any crime.
You don't need to prove anything,
However you are is fine
You talk sweet and you are beautiful,
I feel that you are mine.
I am trying to figure out,
Why you make so late.
Whether you love me or not.
Please tell me straight.
I am not gonna find your fault,
Not gonna hurt you.
I trust and love you
And forever will do.

## Let us make a plan

Let us make a plan for our future,
I feel like you are mine.
I like listening to you how you talk,
When you're near I feel fine.
I want to belong to you
If you really do agree.
We passed the university,
Both of us have degree.
Our age is going fast,
Time wait for none.
I can't stay lonely no more,
We should make fun.
We will go on trips onward
Life should be stable,
I can't stay without you,
To make happy I'm able.

## Don't shake hand

Don't shake hand with regret,
I'm gonna miss you so much
My heart always beats for you,
I really love you very much.
You can read breath of my heart,
Only your name is there.
Don't go dear leaving me,
Please stay with me near.
Without you my life is dark,
I can feel you only.
Your eyes killed my heart,
I feel so lonely.
I also feel suffocated,
When I live alone.
I will always wait for you
In my home salon.

## I will win you one day

I will win you one day
Time turns always,
My days will come soon
Now are your days.
I want you to be close to me
And never say goodbye.
I am not going to hurt you
Come to me, don't be shy.
I will give you a free life,
I am gonna confess.
I cannot live alone,
Without seeing your face.
Your house is near to me
You will come to my home,
This house will be yours and mine,
We will sleep in one room.

# I am waiting for you

I am waiting for you long long years
That's why I'm living alone.
I follow you so I can make you mine,
But your heart is made of stone.
I don't know whether you will be mine
But I hope I'll get your heart.
All my love is true from God,
You will be really my part.
I will quietly wait and wait
One day you'll come to me,
You are in my every breath
Of course you will see.
I see you standing at the University,
Talking to people there.
Just to see your charming face,
I have gone so near.

# If you come in my life

If you come in my life,
I'll make you as happy as I can,
I'll try to make you feel fine
That is really my plan.
We will share our love,
We will share our resources,
We will share our work,
Happiness will be the sources.
Now I am like a rolling stone,
I am here and there.
If you're with me I'll compromise
Everything I will share.
When you realize me,
Realize my love too.
There will be no vacuum
At home, just me and you.

## When will I get you forever

When will I get you forever?
I am waiting for that day.
I feel you inside my heart
Over telephone you can say.
Moonlight is coming through window
I am standing holding grill.
Today is full moon you see
You are with me I feel.
You have been ignoring me
I felt you would no more.
I was feeling very much sad
Feelings I felt never before.
Please don't release me
My dreams were really broken.
I want to make you mine
Several times I have spoken.

## I still don't know

I still don't know
Why I feel apart,
I still don't know
Why you broke my heart.
I never knew in life
I have to be so lonely.
Cause I gave you my heart,
I have loved you only.
I may hurt you some days,
I felt it was a joke,
I didn't know you'll be angry
I'm sorry that I poke.
I will be happy if you forgive
We can start from new,
Let us exchange our heart
I will be serious about you.

## In my every breath

In my every breath
I remember you,
My endless heart
Talk about you too
When I fall asleep,
I dream about you.
Please replace our love
Or course I will do.
I remember you
In the light and dark.
Let us go for a long drive,
We can sit in a park.
I want to see you often,
My heart is wild for you.
Please stand beside me,
You have burned my heart too.

## I open my eyes

I open my eyes,
I see you here,
After I woke up
I see you near.
After a long day
You have met me.
Your brightness is increased
I am happy to see.
Let us hug
If you agree.
Tell your stories
Sitting beside me.
How have you been
In your last moments.
I promise I'll listen
And positively give comments.

## My love will be endless

My love will be endless
My heart is for you.
Until death I'll be yours,
That commitment I do.
You are only my dream
You gave the best memories.
You and I will make
The world's best stories.
I am standing for you
Whole life I will do.
I want you to hear the rhythm,
Of your heart too.
We will live in one home,
We will play together.
You and I will sing love song,
We will hug each other.

## Life is like a river

Life is like a river,
Flowing to the sea.
We are in a boat
Only you and me.
Let us now commit
Our relation never break,
Whether storm in the river,
Or boat that may shake.
On the way of our life
There are different steps in.
Both of us will compromise
That will be in-between.
Days are going faster,
We have to adjust both.
Let us stay together,
That will be our oath.

## If you leave me

If you leave me dear
I will die alone.
Please don't make your heart
As like as a stone.
I want you come to you
Come to me forever.
I will not hurt you
Never will leave you, ever.
I will wait for you
All my life you see.
I will buzz around you,
Just like a bee.
You may trust upon me
I am promising you.
I will love you life long,
For sure I will do.

## How long will you hurt

How long will you hurt me
Years and year.
If you do so to me
I will not be near.
Scorching sun in my heart,
You talk so loud to me.
Even you shout to me
I will wait and see.
Day will come I am sure,
You must understand.
You will realize me,
And by my side you'll stand.
I will take your love,
Though your heart is a stone.
I will get your heart,
And I will never be alone.

## I try to be open to you

I try to be open to you.
I wish you realize me.
I want you from my heart,
You love me, want to see.
I hope you belong to me
Never you will leave.
We will make a perfect life,
Morning, noon and eve.
I want you always closer,
Want your blind love too.
I will be lost in your heart,
In my heart will be you.
I am really selfish,
To share your love and adore.
Keep me in your mind,
For you I'll open my door.

## Our hope is climbing

Our hope is climbing to sky,
You are coming closer to me.
We have to manage our relationship,
We will be happy you can see.
When I feel lonely
You are far from me.
I wait for your calls
Video Call, I want to see.
When you are near to me,
I feel so fine.
Never leave me please,
As you are mine.
I feel you deep inside me
Whether you far or near.
I keen to see you always,
I am happy when you here.

## You promised me

You promised me we'll live together
We will love each other.
Glorious life will be ours,
Also told my brother.
I need deeper love,
Not only your kindness.
I need real love,
Love like blindness.
I need your wild heart,
I will give you mine.
My heart beats for you,
Our life will be fine.
I am trying to get you,
In my enlighten heart
Will you give your wild heart,
Then I will be your part.

## Close together

Let us sit be close together.
Let us talk sweet stories.
Those may be our case studies,
Or may be our memories.
Our hope will make happy each other,
Try to make times meaningful.
Sweet words we will tell each other,
Our life will be beautiful.
I like your touch and like you talk
Like your tweets.
I like you light of smiling face
And your word sweets.
We laugh together all our life
Make a sweet home for us.
We try to know each other
Glorious life will have we're serious

# Old stories

I have lost my sleep,
Still for you I'm breathing.
You have left me behind,
My heart is bleeding.
I have really broken inside,
I'm feeling very weak.
You have snatched my heart,
But still it made me sick.
I have lost spirits of life,
Comparing old and new memories.
Cannot bear with distance between us,
Old were all love stories.
I want to leave this world,
There is no hope for me.
Or want to go back to those times,
They were very good memories, I see.

# .My heart beats for you

You have stolen my heart
I am killed by your love.
When keep my eyes closed,
You're there as peace dove.
Sometimes the world is against us,
People don't like that we're together.
We will run on our own way
We should not always bother.
Every day and night,
You are in my mind.
Between you and me no distance
Every moment I find.
Wherever you go far,
I wish I will go too.
To feel your love and touch,
My heart beats for you.

July 11, 2020

## Time will turn

I have got to go,
I cannot bear with you hurting me.
I have to say goodbye,
I don't want you to see.
You have broken my heart
All of our memories are bitter.
You wanted to do exchange our heart,
You are a fake tweeter.
One day may come,
When you will miss me.
I will be then apart,
You need me but no see.
You didn't value my love,
You will realize one day.
You came close and exploited,
Time will turn and it may.

## Never let you go

I will never let you go,
Will keep you in my heart.
Up to my life time,
You will be my part.
Wherever you go for work,
Should come home by night,
I will make you happy,
With you I will not fight.
I do not like distance,
I want to be closer to you.
I need a wild heart,
All of our memories too.
I do not like to feel
Pain in my heart.
Do not leave me alone,
As you are my part.

## Vacation

Don't go leaving me,
Please stay beside my heart.
Though you always busy,
But remember you're my part.
Take me somewhere for vacation,
Enjoy life as Romeo and Juliet.
Let us fly together for romance,
That idea will be very great.
We don't go to crowd but solitude,
There will be flower and garden,
There nature will be colorful,
I hope it will not be burden.
You are in my thoughts,
And in my dreams too.
Till I live in this world,
I must love you.

## My breath

Can't you feel for me
My endless love for you.
My every breath calls your name,
I love you and will do.
If you feel me in you,
Let us exchange our heart.
Our love will grow deep,
One day you'll be my part.
When I saw you first,
Your eyes have touched my mind.
Your vision killed my heart,
After that I try to find.
You smile at me sweetly,
And all my suffocation goes.
When you love and adore
And smile then touch my nose.

## You will be mine

Day will come soon
When you will come to me.
I will wait for that day,
Both of us will be happy.
My love is blind for you
But now you are ignoring,
Showing me you're unknown.
Now you feel it's boring.
If you give conditions
I am ready to compromise.
To get you in my life
I am ready to sacrifice.
I feel you every moment,
In every breath of mine.
I need you close to me,
Then everything will be fine.

## New life

I do not want a lonely life
Because I feel apart.
I badly need you in my life,
I need you in my heart.
Hope you could realize me,
Realize that, I love you.
You will come closer to me
To break loneliness too.
My love will make you happy,
Please don't say goodbye.
My love is blinded for you
Stay with me, you don't fly.
Nobody can get me in life
I am only for you.
Please be mine only
We will make life new.

## Choice

You made emptiness in my life,
Plenty of rooms are there.
You are not closer I miss you much
Happy when you are near.
I am worried when you are far
Cannot sleep at night.
I cannot breathe without you,
Please come catching flight.
You occupied my heart
Your face is on eyes of mine.
I am delighted getting you,
After getting you in life is fine.
I remember your light,
I remember your voice.
Without you life is dark,
You are my only choice.

## Smooth life

Light of your heart
makes my life joyful.
It's like a diamond
It's very beautiful.
Voice of your mouth
Fascinate my mind.
You have given me love,
You are very kind.
When I am very sad,
You try to erase my sadness.
I am wild to love you,
You bear with my madness.
You said you have been in love
I have fallen in love letter.
Now our life is smooth,
Now our life is more better.

## Exploited

Nowadays I remember you,
It's like old feeling.
As you have exploited me,
It was heart killing.
We have celebrated our love
I have trusted you.
You have made distance between us
What could I do.
We have enjoyed midnight moon,
Under sweet moonlight.
That was my best memory,
That was my best night.
I thought in my life,
You will be mine forever.
You passed time with me,
You never did me favor.

## Tender heart

I can listen to the rhythm
of your tender heart,
I will remember your voice
As you are my life part.
I like the way you talk,
The way you sing song for me.
Flashback starts on my eyes
The sweet memories I can see.
My dreams come true cause
You delight me with love.
If I am lonely my happiness
Fly like a wounded dove.
I hope you will never leave me,
Which will hurt me so much.
You will be closer to me life long,
Give me love and adore very much.

## The Hereafter

We think about the present world,
Do not think of the Hereafter.
We are surrounded by people ,
Feel the world is lovely chapter.
We have to go to the God,
Opening the door of our mind.
We have to go through crossing,
We have to be calm and kind.
Our heart is embroidered,
Even at night, we see dawn.
Do we pray to the God?
We think of daughter and son.
Keeping God in our heart,
We have to serve for His creation.
The owner can see everything,
To go to Him need preparation.
We have a thousand life stories,
We only like the world colourful.
Take down our guilt book of life,
Correct mistake, it will be beautiful.

## Touch

When you have been closer,
My moment was joyful,
There was no emptiness,
My life was beautiful.
When I am alone,
I miss you so much.
Glorious river fed out,
Eager to get your touch.
Maybe I have fallen in love,
Please do not fall apart.
Give me your holy hands,
You must be happy to be part.
Do not stand on the corner,
Come closer to me.
My eyes are very much eager,
Eager to touch and see.

## Do me favour

When I close my eyes,
I can see your face.
I can listen to the rhythm,
Of your voice I confess.
My heart is replaced by your heart,
I am delighted now.
My love and respect for you,
I owe you and bow.
All the darkness is gone,
Light is in our love.
All the sadness is gone,
Happiness comes with dove.
I will feel pain in heart,
If you leave me forever.
I am pleading to you,
Stay with me do favour.

## Emptiness

You have taken my heart,
Please confess.
Now I feel in my mind,
Full of emptiness.
You belong in my heart,
You belong to me.
You are here the heaven is here
Happiness I can see.
Our love is growing deeper,
Flowing like a river.
I want to get a rhythmic life,
I will love you forever.
You will be only mine,
That is my dream.
Our life will run to the sea,
It will run like stream.

## Apart

You have taken my love,
After that you broke my heart.
You made distance between us,
Now I feel sorrow and apart.
Thought we will exchange our heart,
Our memories will be sweet.
Like a bird you come in my life,
You will tweet and tweet.
Now I feel bad and sad,
I feel so lonely.
You have been my crown,
My real life only.
Till I think you are mine,
In my heart always you are.
Invite you again in my heart,
Please don't you go far.

## Now you love me

You have been unknown to me,
You have been very very far.
When you call me by my name,
So near to me came you are.
When you tell sweet words to me,
Distance has been narrowed down.
My love have been blind for you,
You have become my crown.
When you are talking to me,
That is my prime time.
Midnight is shining for you
My spirits always climb.
Hope you have realized that
I am delighted getting you.
I am excited when you are near,
You love and adore me too.

## Still I love you

There has been distance between us,
But I still loved you.
Whether you love me or not
I will always do.
It is not easy to get you,
That I know very much.
I will be your well wisher,
Whole life I will search.
I will never be selfish
I will give you love.
I will try to give you peace
Like a happy dove.
Committing to not hurt you
Even if you hurt
Silently I will go far and far
I will be apart.

## Sweet words

You live a thousand years and
become a man of my mind.
I will tell you sweet words
I will love you and always find.
I will erase the sorrow and
and make sweet memories.
I will sing you songs of the
moon, sun, stars stories.
I will hold your strong hands
under the glittering blue sky.
On the gray sand on the sea shore
we must walk, you and I.
I am feeling the air tremble
inside my chest,
Your memory and dreams
I feel that's best.
I have kept you in my heart,
I saw love in your eyes.
My heart I have given to you
With lots of butterflies.

## Waiting

I see you at a glance,
My mind now is excited.
I wait for you all the time,
When will I be invited.
Seeing the sweet smile
on your face is cool,
Your voice is like the melody
from a music school.
You are here, spring comes,
there are flowers colourful,
I enjoy your eyes, you hair,
your face that's beautiful.
When you come, l am happy
Surround me forest tidal,
I am waiting to wear eagerly
White new dress bridal.
If you are not here there's
dark smoke in the sky,
I haven't seen you for so long
So much miss you I.
In the midst of your love,
the interest of eternal life.
I am eager to see you
Will be happy to be your wife.

## Share care

As much wealth as you have,
All are really not yours.
Everything at the time of death
There will be closed all doors.
The soul will be of God,
The body will be spoiled too.
Your place will be in grave,
Nobody will be there but you.
Insects will eat your flesh,
Your bones mixed with soil.
Don’t keep yourself busy
Run after money life spoil.
The sense of human love,
Please keep in your mind.
As much you can love
Peace in mind you find.
Everything will be left
at the time when we die.
Let's share and care
All you have and I.
Take away the pain of hunger,
Sharing your resources.
Without sharing those they may
snatch from your sources.
If you donate for the poor,
Peace be upon you.
Will be satisfied when share
And care if you do.

## Satisfied

Be satisfied with little things
Oh my heart whether not rich,
Be happy without Diamond
Without pearl on the beach.
We are all running after
money making our life tough,
Simple life gives us peace
We no need to be rough.
Thousands of questions
in our mind keeping us busy.
If we are calm and patient
Our life will be very easy.
Keep transparency in mind,
that is the valuable thing.
Honesty is your diamond,
Crown for you, you are king.
So many people sleep
under the open sky,
The sun burns them everyday
That is a concern of my.
Yet we see smiles on their faces,
Whether they are poor,
Many people don’t get food
That we know for sure.
Love is the best way for peace
Let's spread the love,
Don’t run only for money
Fly away peace dove.

## Flowing river

River flowing inside my chest,
There is clear water.
After getting your sweet love
I feel my life is better.
Now spring is running on
That is known by everyone
Love for you is in my heart
I didn't tell that to anyone.
I have got your pure love,
In my life it is bless.
I am not sad anymore,
Whether death embrace.
When you're far I miss you,
My eyes look for you.
You will understand the
compassion of my heart too.
That's peace, when you
are beside my heart
There will happiness and
I feel you are my part.
Your memory I have
always in my chest,
You are mine in this world,
For me you are the best.

# I want you

I want you in solitude,
In my empty heart,
I want you forever
as my only life part.
I want you by my side
in the dark of night.
I want you to have fun
on a sunny day light.
I want thousand sweet smiles,
in your thousand words.
I choose you as my love,
from the thousand birds.
I want you in all walks of life,
I want you forever Infinity.
I want you in my faith,
As well as in my reality.
I will win by getting you
That's why I dream you,
For you I am writing a
thousand love poems too.
In a moment from my heart,
I don't want lose you.
I want you every breath
Of my daily life too.

# Love chain

I feel empty if I don't see you,
You are in the middle of my heart.
Your are my green forest,
In my life you are the part.
Heart chained by your love chain,
But yet I am happy too.
No matter how many obstacles,
I will spend my life with you.
I did not see in your heart,
Still believe that you love me.
The words of your mouth,
Real assurance it will be.
I'll remember you always,
You are my happiness,
Everything I got from you,
That will be the bless.
I have given my love,
Just for you, believe.
I am waiting for you,
Morning noon and eve.
I like your silent eyes,
Thousands words it speak,
Thousands of dreams in heart,
But you're the dream I pick.

## Not to mention

Thousands of words are
inside me, I want to write.
Everything that cannot be
written, cannot come in light.
A thousand words remains
in my heart, I want to say,
I want to talk openly but
happen disaster it may.
Lots of opinions inside me,
want express but I'm silent,
Expression of my opinions may
lead to different types violence.
All my hopes and wishes,
cannot be printed in letter.
Most of my dreams in mind,
if not implemented, better.
Different colours in my heart,
there are various games.
I am thinking in solitude,
there are different names.
Free independent life that
I very much want to get.
So many salty tears from heart,
That making my eyes wet.

## I forgot

I forgot everything but you,
I forgot moon sun star too.
By the smell of flowers,
The flow of love is ours.
Spending my days thinking of you,
spending my nights too.
It seems love is flowing inside me
The serene sky of happiness will be.
Your sharp love kills my heart,
No one knows the news.
Our love is still a secret.
Only we know our views.
Your heart is a cage of love,
I have lost there myself
Please come in my heart,
And you lose yourself.
I want to see you,
this beautiful night.
Let us be together today,
Make the night bright.
My dependence on you,
is growing day by day.
You are perfect for me,
As I come know the way.

# Give us back peace

In one country after another
war imposed by you,
That's how you dominate the world
dictatorship you do.
In the seventy-three years
Thirty million people you kill,
America you have done worse,
now its time to deal.
Economic and military
Country of superpowers,
Brutal leaders you are
Killed the people like flowers.
Center for Research on

James A. Lucas the historian
Says these all the buddy.
The United States massacre
Initiates, runs these wars,
Afghanistan, Syria, Yemen,
Libya destroyed, made worse.
By the hands of US forces
300 million people injured,
Some of them are disabled
Some of them are cured.
Imposed poverty, crime,
racism and violence,
Violated human rights
Sad is UN's silence.

Modern imperialist
Now the United States,
Destroyed one by one
Total 37 states.
Making people afraid
Control over their resources
Spying all over the world
Spy's are your sources.
Corona the fighter germs
Innocents are dying
The world is being collapsed
Till you are spying.
Stop killing people
Its time to save the earth,
Do plan for world peace
Give the new hope birth.
Give us back peace
We demand from you,
Stop killing people
Peace work you should do.

## Peace

I like to live my life
full of joy, happy and fun,
I smile and laugh with friends,
Very simple life I run.
Let's love people around us,
Be happy supporting others,
Let's make the world joyful,
We are sisters and brothers.
We need the light of sun,
We need the light of moon,
We need real love to live,
If we love will get love soon.
Poverty touches our hearts,
Our resources we will share,
If want to make the world
Peaceful then others we care.
Peace we need in our life,
Tolerance we should practice
We will never hurt others
We will avoid every hitch.

## Lonely

Just in my song
About his memory,
He left forever
That's the real story.
My heart is pounding
He is not with me,
For long years
Him I can't see.
I have lost him
And I have cried,
To find him near
So much I have tried.
My heart feels stormy
It can't live without love,
My life is lonely sad
Like a flying dove.
Just in my music
It's about separation,
Feel like falling petals
Increasing my tension.
No one sees my grief
Nobody sees me crying,
Opposite bank of river
To cope up I'm trying.

## Love for lifelong

I remember the familiar path
Where we walked in the village,
You have been open minded
and that was my privilege.
Unfulfilled desires of life
Still the date I remember,
There was no dream in chest
Hoping to get him closer.
Dream of touching him
Made my mind restless,
In a quiet, secluded way
Needed him, I was helpless.
Fly to give light Fireflies burn
The blue sky was dark,
We were walking hand in hand
Thousands of stars spark.
All the memories I remember
Are often about you,
As you know I love you
And lifelong I will do.

## Moonlit night

Today is a moonlit night
We will bathe in moonlight,
We will play with the stars
Holding hands only, no fight.
Your heart is like the sky
Bluish sweet night and day,
In dew-drenched soft light
Let's be together, we may.
I promised all my life
Dear I will be only yours,
Our life will stay tuned
We will be happy of course.
Two hearts in merriment
Keep me on your love,
Immersed in your love
I'll stay with you like a dove.

## In the garden

I'll get lost with you in garden
We will go in the Lily's forest,
We will pick up the lotus flower
In my life you are the best.

We will play with the waves
Both of us in blue water,
Windows open in the morning
Hear the chirping we'll flatter.

I want to remember you often
Lost in your sweet memory,
My bond of love remain intact
We will make a love story.

We will sing the love songs
We'll smile, enjoy and laugh,
We will play and we will read
I will be your better half.

## Hide my sadness

Everyone sees my smile
Pain hidden in my chest,
Everyone knows in this life
I'm happy, life is best.

Let the feeling of my chest
remain hidden in my heart,
No matter how much I stumble
My tension I keep just apart.

I try to find the happy world
Where can I find that place?
I do not want anyone to cry
Every one should get bless.

Who takes the account of upset
Nobody will listen to me,
No one understands the desires
No one is sad I want to see.

No complaints to anyone
I'm smiling day and night,
Everyone knows in this life
I'm happy there is no fight.

Thanks
